Purpose and Overview.

LAKE AREA CORN PROCESSORS, LLC (LACP) has engaged Variable Investment Advisors, Inc. (VIA) to provide a trading service for members and non-members to buy and sell LACP units. The trading service is part of LACP's Units Transfer System. The Trading Service will be maintained and operated as part of Variable Investment Advisors, Inc.'s Alternative Trading System (Trading Service), which is registered with the United States Securities & Exchange Commission (SEC). VIA is a registered broker-dealer with the SEC, National Association of Securities Dealers and various states.

LACP must limit trading to preserve LACP's favorable pass-through tax status. As a result, members will only be allowed to sell their units through the Trading Service, except for private transfers. Transfers that are not made through the Trading Service will be null and void, unless they qualify as a private transfer and are approved by the Board of Managers. Members should review the provisions of the Units Transfer System on LACP's website or by link from VIA's website www.AgStockTrade.com for further guidance.

To use the Trading Service, interested Buyers and Sellers must first register on the Trading Service. They may make an offer to buy or sell a certain number of units at a price they choose by posting such information on the Trading Service. Sellers may post offers to sell their units at an "ask" price at any time of the year. Buyers may post offers to buy units at a "bid" price at any time of the year. Buyers' and Sellers' bid and ask prices are non binding when posted and will be matched according to the rules set forth below. The purchase price will be the bid price of the matching offer to buy. The exchange of the purchase price and Unit Ledger will be handled through an independent Escrow Agent and a designated Transfer Agent. There is no charge to Buyers or Sellers to register or post units on the Trading Service; however, Sellers will be charged an escrow and commission fee for completed transactions. Interested Buyers and Sellers should carefully read and follow the instructions provided below.

b. Registration. Interested Buyers and Sellers must register before they can post an offer to buy or sell units on the Trading Service, but they may review the current listings of offers to buy and sell on VIA's website without registration. Buyers and Sellers can register by contacting VIA in person, by telephone or via the Trading Service website, as listed above.

- Required Information. Buyers and Sellers will be required to select a username and password and provide the name of the Buyer or Seller, contact information (address, telephone number and email) and certain banking information (name of bank, banker, etc).
- Updating Registration Information. Buyers and Sellers may update their registration information or change their passwords by following the instructions provided on the Trading Service website or by contacting VIA in person or by telephone.

3. Posting Offers.

a. General Rules. Registered users may post offers to buy or sell by contacting VIA in person, by telephone or via the VIA website, as listed above. If logging into the website, provide the information requested when prompted. If posting by telephone or in person, provide the information requested to the VIA representative and he or she will enter the information into the Trading Service. There is no charge to post offers to buy or sell.

- Bid/Ask Prices. Buyers are required to post a bid price, and Sellers are required to post an ask price. The "bid" price is the price the interested Buyer is willing to pay to purchase units. The "ask" price is the lowest price at which the interested Seller is willing to sell Seller's units. If there is a match between an offer to buy and an offer to sell, the purchase price will be the bid price of the offer to buy.
- Non-Firm Offers. All posted offers to sell and offers to buy are *non firm and non binding*, meaning that units posted for sale by Sellers are only matched and settled with Buyers' posted bids at the time the parties sign the Sale Confirmation and Contract described below.
- Waiting Period. An offer to sell will not be matched with an offer to buy, unless the offer to sell has been posted for at least 15 days following the date such offer to sell was posted. Any modification of an offer to sell activates an additional 15 day waiting period.
- Multiple Offers. Buyers and Sellers may make multiple offers to buy or sell units at different prices. The Buyer or Seller cannot post multiple offers and pick the best one that matches, nor can any Seller post more units for sale than he or she owns.
- Increments. All posted offers to sell and all sales of units must be completed in increments of 500 units.
- No Brokers/Dealers. Buyers and Sellers may not use a broker-dealer or other representative to post offers or make trades on their behalf through the Trading Service. Buyers and Sellers may only post offers and make trades for their own accounts.

 - Select “Lake Area Corn Processors, LLC” as the company's units to sell.
 - State Number of Units for Sale in 500 share increments. Note that the Trading Service will split the units listed for sale if a Buyer match occurs for less than all of Seller's units posted for sale.
 - State the Ask price Per Unit.
 - Confirm that the units are owned by Seller, that they have not been previously transferred or sold, and that there are no liens or claims thereon, except where the lien holder has given its written consent to transfer. (If the Seller has pledged his or her units to secure a loan or other obligation, Seller will need the written consent of the lender to sell the units.)
 - Confirm that Seller has read and understands and agrees to the rules of the Trading Service as set forth in this Operations Manual.
 - Confirm that Seller will surrender the units, if Seller’s units are sold through the Trading Service.
 - Confirm the accuracy of the information posted.

When a Seller posts units for sale, VIA will notify LACP’s Transfer Agent of the posting for the purpose of verifying ownership of the units, and determining that all units are qualified to be sold. The LACP Transfer Agent will in turn notify VIA of Seller’s eligibility to sell and transfer the listed units and will verify whether any waiting period applies. A 60 day waiting period applies from date of de-listing, if Seller previously posted units for sale that did not sell within the 120 day posting period.
- 500 Unit Minimum. All LACP members are required to hold a minimum of at least 5,000 units.

- Confirm that Buyer has read and understands and agrees to the rules of the Trading Service as set forth in this Operating Manual.
- Confirm that Buyer will pay the purchase price, if Buyer is successful in purchasing units.
- Those placing buy offers have the option to enter a maximum price per Unit you are willing to bid if someone is bidding against you. This allows you to continue bidding without constant site observation. (Only the person placing a maximum bid offer will see this information.
- It should be noted that if two or more potential buyers are placing bids on the same sell offer, and one of the bidders has placed a maximum bid that meets or exceeds all other visible sell offers, this offer will be given priority in the event of a “tie” buy offer.
- In the event that a bid is entered between 4:58 – 5:00 p.m., “Extended Bidding” will apply. Online bidding will be extended in rolling two minute increments, if bids continue to be entered. Once two minutes has elapsed with no additional bids, a match will occur if the winning bid is equal to or greater than the Sellers asking price.

d. Publication of Posted Information. Upon confirmation of posted information, VIA will publish on its website and maintain in printed form the information posted by Buyers and Seller regarding the number of units desired to be bought or sold and the bid or ask price per unit. All Buyers’ and Sellers’ information will be published anonymously.

e. Notices. Notices will generally be provided by e-mail only. If no e-mail is provided, notices will be sent by U.S. mail to the address provided upon registration.

4. Matching/Closing the Sale.

a. Bidding period. Sellers may post units for sale at any time of the day, week or year, though a 15 day waiting period will apply until matching can effectively occur. Buyers may post a bid to buy units for sale at any time during the day, week or year, and no waiting period will apply before matching can effectively occur.

b. Matching. At 5:00 pm Central Time of any day, Sellers' ask prices and Buyers' bid prices will be matched under the following matching rules, conditions and guidelines:

- Matching occurs when an offer to buy has been posted at a bid price that is equal to or exceeds a Seller’s posted ask price.
- Price will be given priority over time at which an offer to buy or sell is posted, unless other conditions stated herein apply.
- The lowest offer to sell will be matched with the highest bid price.
- If multiple bid prices exceed an ask price, the highest bid price has priority over other bids.

- If multiple bid prices are identical, the bid posted first in time has priority over other bids.
- If multiple ask prices are posted at identical ask prices, the ask price posted first in time has priority.

i. Unmatched Offers. If a Seller's ask price is not matched with a Buyer's bid price within 120 days of posting of Seller's ask price, Seller's posting information will be removed from the Trading Service on the 120th day of posting and, after removal, Seller will not be permitted to repost an ask price for 60 days. Unmatched offers to sell at the end of the 120 day period will not automatically be listed again. To repost, Seller will need to take those steps required by the Trading Service.

j. Display of Offers. Bid and ask information submitted by Buyers and Sellers will be publicly displayed on the Trading Service website and available in printed copy.
